Consul General Skinner, who recently started for Abyssinia to make a treaty with King Menelik looking to the introduction of American goods into his dominions, took with him a large collection of gifts to be presented to the king, says the Washington Star. Among them is a large silver plaque, upon which is engraved the invitation of the Louisiana Purchase exposition to the king to visit the fair next year. There also is a collection of modern firearms, which are samples of the best manufactured in this country. Another present consists of photographs of different scenes and industries in the United States.

SIMPLE REMEDY FOR CATARRH

Just Breathe Hyomel Four Times a Day and Be Cured.

If a few years ago some one had said you can cure catarrh by breathing air charged with a healing balsam, the idea would have been ridiculed, and it remained for that eminent investigator, Dr. T. Booth, to discover in Hyomel this method of cure. Hyomel has performed almost miraculous cures of catarrh and is today recognized by leading members of the medical profession as the only advertised remedy that can be relied upon to do just what it claims. The complete outfit of Hyomel costs but \$1.00 and consists of an inhaler, a medicine dropper and a bottle of Hyomel. Breathe Hyomel through the inhaler for a few minutes four times a day and it will cure the worst case of catarrh. It soothes and heals the mucous membrane of the air passages, prevents irritation, and effects a complete and lasting cure. In Barre there are scores of well-known people who say they have been cured of catarrh by Hyomel. If it does not cure you, Rickert & Wells will return the money you paid for Hyomel. This is the strongest evidence that can be offered as to their faith in the remedy.

ODDITIES OF DUKHOBORS.

Fanatical Set Resumes Peculiar Customs by Burning Wheat.

The Dukhobors have resumed their fanatical customs in the Yorkton district in Manitoba, where they are located in colonies, says a Winnipeg special to the St. Louis Republic. Six have recently been before the courts charged with having willfully set fire to a binder and a quantity of grain some weeks ago.

The prisoners were asked to select one of their number who should give evidence for them all. The prisoner chosen was the man designated during the last pilgrimage as "John the Baptist." He gave his evidence in the following words:

"The wheat we are accused of rolling down and injuring was ours, as well as the other Dukhobors. We helped sow it, and it was sown without animal labor; therefore it was sown in accordance with the new life. The binder also belongs to us as much as to the brethren, and we burned it to show the new life to the world. We think that everything invented by man is evil, because these inventions injure both man and beast."

The First Sewing Machine.

The first complete sewing machine was patented by Elias Howe, Jr., in 1846.
